

UPDATED: April 5, 2020

COVID-19 (Coronavirus) *Update:*

We would like to take a moment to update you on the continued prevention and preparedness actions taken at Vista Del Mar Senior Living.

In previous updates, we shared information about our infection control protocols already in place, including restricting non-essential visitors, additional in-service training for our staff, creating three dining room seatings for all meals, and providing in-suite dining at no additional cost. Starting in mid-March we began daily precautionary screenings of temperatures and associated symptoms for all staff, residents, and visitor.

In addition to the steps listed above we've made some other recent changes based on CDC guidance, Department of Social Services recommendations, and industry best practices:

- Beginning last week, all staff members receive a new surgical mask at the start of each shift.
- Starting April 4th, we are limiting one resident to each table in the main dining room. We will continue with three dining room seatings and have spaced out our tables to abide by social distancing recommendations.
- We've created additional protocols for residents returning from a hospital or skilled nursing facility and have designated specially trained staff to exclusively monitor these residents while in temporary isolation.

We thank you for your continued trust and confidence as we navigate these uncertain times. We will continue to provide updates as this situation evolves.

Please feel free to contact us with any questions or concerns.
